In sociolinguistics a variety, also called a lect, is a specific form of a language or language cluster. This may include languages, dialects, registers, styles, or other forms of language, as well as a standard variety. The use of the word "variety" to refer to the different forms avoids the use of the term language, which many people associate only with the standard language, and the term ...

Summary. This book is an exploration of the vitality of multilingualism and of its critical importance in and for contemporary cities. It examines how the city has emerged as a key driver of the multilingual future, a concentration of different, changing cultures which somehow manage to create a new identity.

Conversation analysis (CA) is an approach to the study of social interaction, embracing both verbal and non-verbal conduct, in situations of everyday life. CA began with a focus on casual conversation, but its methods were subsequently adapted to embrace more task- and institution-centered interactions, such as those occurring in doctors' offices, courts, law enforcement, helplines, educational ...
