Earth is the third planet from the Sun and the only astronomical object known to harbor life. According to radiometric dating and other sources of evidence, Earth formed over 4.5 billion years ago. Earth's gravity interacts with other objects in space, especially the Sun and the Moon, Earth's only natural satellite. Earth revolves around the Sun in 365.26 days, a period known as an Earth year.

Earth - Wikipedia

Bulgaria is a country situated in south-eastern Europe, bordering Romania to the north, Serbia and the Republic of Macedonia to the west, Greece and Turkey to the south, and the Black Sea to the east. The northern border with Romania follows the river Danube until the city of Silistra. The land area of Bulgaria is 110,879 square kilometres (42,811 sq mi), slightly larger than that of Iceland or ...

The River Habitat Survey (RHS) Toolbox software was developed to enable RHS surveyors to prepare for RHS surveys, input and analyse data. The RHS Toolbox will quality control data, identify potential errors, calculate indices and perform contextual analysis using the RHS baseline survey sites.

River Habitat Survey

The history of the world is about the study of the cultural achievements of the entire human race. This includes the time from prehistory to the end of the 20th century and excludes natural history before the development of human beings
