

distribution channels management and pdf

Distribution (or place) is one of the four elements of the marketing mix. Distribution is the process of making a product or service available for the consumer or business user that needs it. This can be done directly by the producer or service provider, or using indirect channels with distributors or intermediaries. The other three elements of the marketing mix are product, pricing, and promotion.

Omnichannel is a cross-channel content strategy that organizations use to improve their user experience. Rather than working in parallel, communication channels and their supporting resources are designed and orchestrated to cooperate. Omnichannel implies integration and orchestration of channels such that the experience of engaging across all the channels someone chooses to use is as, or even ...
